Great value in this original-owner home situated on an oversized lot with a detached double garage with a shop space at the back, all lovingly maintained since day one. The property boasts nice curb appeal with a spacious front yard, patio stone walkway, mature south-side hedge, and tasteful landscaping. Inside, the bright living room welcomes you with a large front window, while the spacious kitchen and dining area feature abundant oak cabinetry and a front-facing window over the sink. The main level includes three bedrooms and a 4-piece bathroom, plus a rear addition completed roughly 30 years ago that houses a fully operational built-in hot tub with a pool-style pump and heater system and easy fill and drain access. The addition is finished with wood walls and ceiling and surrounded by windows for ample natural light. Downstairs offers a generous family room with an included pool table, a den, a laundry/utility/hot tub system room, and plenty of storage space. Step out the side door into a covered patio space, and enjoy the extra backyard area before reaching the oversized garage. A couple upgrades over the years include a metal roof and many vinyl windows. 6 Fir Street is ideally located just steps from Bower Ponds' walking and biking trails and within easy reach of schools, parks, playgrounds, and shopping.
