Inclusions:	None		

This isn't your average bi-level — it's got presence. From the moment you step inside, the maple-and-glass railing and vaulted ceilings set the tone: modern, bright, and classy. The kitchen is a showpiece with floor-to-ceiling, soft-close drawers, full tile backsplash, stainless steel appliances, and a large island made for hanging out. The primary suite is oversized with a walk-in closet and spa-like ensuite. Every detail is dialed in — built-in sound system (inside and out), Wi-Fi access point that reaches the backyard, reverse osmosis water, on-demand hot water, built-in vac, alarm system, and even a timer for your exterior lights. The basement is partially developed: framing is complete for storage rooms, a 4th bedroom, and a family room area that can be designed exactly how you like it, with 9-ft ceilings, roughed-in in-floor heat, and big windows that let natural light pour in. Step out back, and it gets even better. The fenced yard is fully landscaped and complete with underground irrigation. There's a raised deck off the back door for grilling (natural gas line ready to go), and a second raised patio with double hanging sun swings — perfect for late summer nights or lazy Sunday mornings. Add a 22' x 20' detached garage, and you've got a home that's as functional as it is impressive. This one doesn't blend in — it stands out.
