Prime location in Grandview — close to parks, schools, and shopping — this updated 3-bedroom, 2-bathroom bungalow sits on a large 50x123 (6152sq/ft) lot with plenty of yard space and parking. The home has seen a long list of improvements, including a brand-new full bathroom in the basement (2025), refreshed lighting and appliances (2019), and new main-floor flooring (2023). Outside, the oversized 28x26 heated garage (built in 2021) features 12-ft vaulted ceilings, full insulation, and 240V power, making it ideal for tools, workshop use, and extra storage. Inside you'll find a functional main-floor layout with a bright living room (Picture Window Replaced 2025), spacious kitchen and dining area, two bedrooms, and a full bath. The finished basement adds a family room, additional bedroom, and the new second bathroom. Large front and backyards, mature trees, and ample off-street parking complete this solid property in one of Red Deer's most established neighborhoods.
