Just beside the entry, you'll find a well-sized main-floor bedroom featuring a large window and full closet, ideal for guests, seniors, or anyone preferring the convenience of ground-level living. A full bathroom with a standing shower is located directly across, making this section of the home highly functional for multi-generational families. A modern slider divider wall provides a stylish separation between the living/family area and the dining space. This thoughtful touch allows flexibility in how you use each room while maintaining an open-concept feel. The kitchen sits at the heart of the main floor, offering excellent workspace, ample cabinetry, and a generous pantry. As you move to the upper level, you're welcomed by a bright and versatile bonus room, perfect for a secondary living area, playroom, or home office. A common bathroom with a tub and two additional bedrooms—each with comfortable layouts and natural light that complete the upper level. An added benefit a gas line already installed, offering flexibility for future upgrades or cooking preferences. The separate-entry basement provides significant future potential. Already partially finished by the seller, it includes framing for two bedrooms, a partially set-up kitchen, a roughed-in bathroom, plus a

planned den and family room. This lower level is ideal for future development as a rental income, extended family space, or additional living area, allowing the new owners to customize it according to their needs. The front attached garage and driveway allow for 4 vehicles to be parked at all times. On top of everything you will have a peace of mind for having Alberta New Home Warranty for this property.
