2111-19 St, Nanton This 1,331 sq ft character house from 1920 could be yours before spring. Three bedrooms, one bath and the kind of woodwork and details they stopped building decades ago. But here's where it gets interesting: it sits on a M-DWT land use on a commercial street but currently only used as residential dwelling! Unlimited potential. Updated insulation on upper level means you'll stay warm through those January cold snaps, and the updated electrical clears insurance hurdles without the headache. Detached single garage out back for your truck, your tools, or your overflow inventory. Nanton's the kind of town where people still wave on Main Street and actually mean it. You're close enough to Calgary (40 min) when you need the big city, but far enough away that you're not paying big city prices or dealing with big city traffic. High River's 20 minutes south, Okotoks half an hour north. Tired of the big city hustle bustle? New year, new address or new business with new opportunities with non residential tax incentives.
