Immaculate, upgraded, and built by McKee Homes — this beautifully maintained bungalow is the kind of home that feels calm the moment you walk in. The main floor offers 9’ ceilings, a bright, light-and-airy vibe, and walls of windows that pull in the sunshine all day long. At the heart of the home is a stunning kitchen with quartz countertops, a gas stove, and a huge island that makes everyday life (and entertaining) feel effortless. You’ll also love the upgraded lighting, custom window coverings, main floor laundry, and two truly generous bedrooms — including a primary retreat with a massive walk-in closet (seriously — it’s the size of a bedroom). Downstairs, the fully developed basement adds incredible flexibility with a second living space, a cozy fireplace, and a kitchenette — perfect for guests, teens, movie nights, or hosting family without feeling on top of each other. Outside is where this home really shines: enjoy a professionally installed sunroom, a deck with a gas line for your BBQ or fire table, and a west-facing backyard with extensive landscaping, mature trees, and professionally done curbing. Best of all, you back directly onto a park with a skating rink and fire pit area — a built-in lifestyle for family gatherings, weekend fun, and evening walks. Topping it all off is the oversized heated tandem garage with hot & cold water, tons of storage, an extra-wide driveway, plus central A/C, central vacuum with three hoses, and Gemstone lights for year-round curb appeal. If you’ve been waiting for a bungalow that’s clean, upgraded, and designed for real life — in a quiet location with an unbeatable backyard setting — this one is a must-see.
