Presented by the original owners, this lovely home has been updated for a new family. New carpet, paint, and countertops are sure to impress. This home sits on a generous corner lot and features a large front porch. The home's layout really takes everyone's needs into account. There is a generous front foyer and a flex room at the front of the house that is perfect for a home office, TV room, or playroom. There is some good separation of the main floor, and the rear of the home opens up to a very spacious great room with living area, kitchen, and dining area which leads straight out to the deck for easy indoor/outdoor connection. Some of the upgrades include extra tall kitchen uppers, new kitchen counters and faucet, enlarged opening windows, and a gas fireplace. Completing the main floor are a half bath and a dedicated laundry room. The second floor features a primary suite at the front of the house with a walk-in closet and an ensuite bath with WC, large soaker tub, and separate shower as well as a vanity with plenty of counter space and a large window for natural light. The second floor also contains 2 more bedrooms and a main bath. The basement is unspoiled. It has 2 windows and a rough in for a future bathroom. Outside the back yard wraps around the side of the house for a truly big yard space. The back yard is fenced, has a great deck and kid's play structure, and is completed with a double detached garage. A few other extras include central air conditioning, underground sprinklers, and permanent Christmas lights.
