Walking distance to top-tier schools, Aspen Landing, dining, shopping, and everyday amenities, this is truly a home designed for modern family living. From the moment you enter, you'll appreciate the thoughtful upgrades and timeless details, including rounded corners throughout, an open-riser staircase, custom built-ins, 9-foot basement ceilings, large basement windows, and an oversized garage. The kitchen is the heart of the home, showcasing stunning full-height white cabinetry, a large pantry, a beautiful central island, and seamless flow into the open-concept dining and living areas, anchored by a striking focal fireplace. A remodeled main-floor office with custom built-in desk space for three makes working or studying from home effortless, while a practical mudroom with added lockers keeps everything organized. The open-riser staircase leads to the upper level, where you'll find three charming secondary bedrooms, a spacious bonus room with added, wall-anchored cabinetry, and a true primary retreat complete with a walk-in closet and a luxurious five-piece ensuite. The fully developed basement offers incredible versatility with a large 5th bedroom featuring a generous closet, a full bathroom, and a spacious open recreation area. Highlights include a built-in feature wall for TV and entertainment, a custom gym setup with 8mm rubber flooring, custom mirror, and anchored cedar wall beams, plus added wood shelving in the mechanical room for storage. Tucked under the stairs is a dream playhouse—a favorite for kids. Step outside to what may be every

child's dream backyard. A massive 38' x 20' poured concrete sport court seamlessly connects to existing stamped concrete and features customized lines for basketball and pickleball. Artificial turf has been added behind the court for low-maintenance play space. The backyard is further enhanced by a custom covered entertainment area, professionally constructed by Suncoast Enclosures using aluminum (anti-rust) framing and specialized panels. This space includes a built-in feature wall ready for a mounted TV with concealed power and a retractable shade for the south-facing exposure. Additional highlights include Gemstone exterior lighting on both levels of the front elevation, a fully finished garage with paint, shelving, sport lockers, and durable wall-panel storage systems (all included), central air conditioning, newer dishwasher, microwave, and hot water tank, and additional lockers added to the mudroom.
