Suited revenue property situated on a large lot with alley access on two sides, offering outstanding flexibility and ease of access. The property features a single detached garage plus an expansive RV parking area capable of accommodating two RVs or multiple vehicles — a rare and valuable find. This property offers a two-bedroom upper suite and the basement features a non-conforming (illegal) one-bedroom suite, with a common utility room and shared laundry facilities. With minimal improvements and a fresh coat of paint, this property has the potential to generate approximately \$3,150 per month in gross rental income in today's market. An excellent opportunity for investors or buyers looking to add immediate value and equity through light cosmetic updates. Properties with this combination of lot size, access, and income potential are hard to find — don't miss out.
