i PREFACE

Cushing Terrell Architecture Inc. ("Cushing Terrell") was commissioned by the County of Grande Prairie in December 2014 to conduct a Retail Market Analysis for the County's retail sector.

The objective of this study is to document in detail the County, but more specifically the Hamlet of Clairmont's future retail opportunity by quantifying the Trade Area retail expenditure profile across various retail categories/store types and the resulting floorspace demand attributable to growth in the local area, by virtue of its proximity to the City of Grande Prairie and future annexation areas.

A detailed Consumer Intercept Survey conducted by Keyfax Market Research was undertaken to augment a previous Survey conducted as part of the City of Grande Prairie's Retail Market & Gap Analysis. This survey further isolated respondents from the County of Grande Prairie.

This document is intended to assist the County of Grande Prairie in promoting the community, working with developers and investors, as well as attracting new or expanding retailers/ formats, retaining existing retailers and providing an overall identity/positioning strategy for future developments, the most noteworthy of which is the Clairmont Heights Area Structure Plan which has within its plan boundaries a strong retail commercial component.

Reference material for this report was obtained from, but not limited to; The County of Grande Prairie, City of Grande Prairie, Commercial Real Estate Brokerage Firms, Conference Board of Canada, Local Commercial Developers, International Council of Shopping Centers and Cushing Terrell Architecture Inc.

Cushing Terrell does not warrant that any estimates contained within the study will be achieved over the identified time horizons, but that they have been prepared conscientiously and objectively on the basis of information obtained during the course of this study.

Also, any tenant references made in the report are for illustrative purposes only and should not be taken as guarantees that they will locate in the County of Grande Prairie, but rather that they could represent compatible "target" retailers or are the views of Consumer Survey Respondents.

This analysis was conducted by Cushing Terrell as an objective and independent party; and is not an agent of the County.

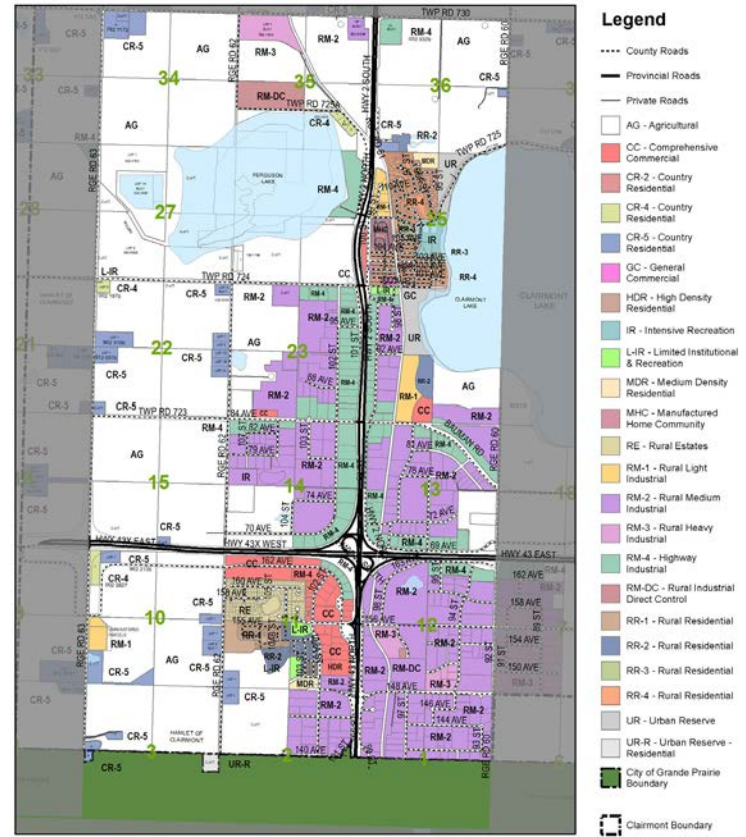

As is customary in an assignment of this type, neither our name nor the material submitted may be included in a prospectus, or part of any printed material, or used in offerings or representations in connection with the sale of securities or participation interest to the public, without the expressed permission of Cushing Terrell Architecture Inc. or the County of Grande Prairie
